Apart from promoting your books assiduously online, there are several different strategies that may help you sell more books.

One is to give something away without spending a dime along with your e-book, akin to a invaluable bonus item. Or bundle a number of ebooks under one value, which lowers the price for each e book if they were bought separately.

An efficient technique for determining a price is to send out a survey to your present customers. If these clients have already purchased an book from you, ask for their opinion when it comes to price. Do this by creating a sales page for the new guide, however do not embody a price on that page. As a substitute, add various hyperlinks to survey questions that ask pointed questions to assist you in assigning a price to your ebook.

One other strategy is to test out costs by creating a number of duplicate gross sales pages with different costs on every page. Make sure that your gross sales copy is precisely the same on each

page, and contains your selling-handle sentence. Then work out for every page the conversion ratio between guests to your site and sales of your book. This can let you know what your optimum price is.

In the end, should you've written a guide that solves a drawback or presents a new method, your e book will usher in both traffic and profits. So be sure you write that selling-handle sentence that sums up what downside your guide solves and what the benefits of your 1222 guide will likely be to the purchasers who buy it.
