An effective technique for determining a price is to ship out a survey to your current customers. If these prospects have already bought an ebook from you, ask for their opinion in terms of price. Do

this by creating a gross sales web page for the brand new guide, but don't include a value on that page. As an alternative, add a variety of hyperlinks to survey questions that ask pointed questions to help you in assigning a worth to your ebook.

One other strategy is to check out prices by making a variety of duplicate sales pages with completely different costs on every page. Make sure your sales copy is strictly the same on every page, and contains your selling-deal with sentence. Then work out for each web page the conversion ratio between visitors to your website and gross sales of your book. This can tell you what your optimum value is.

Finally, if you've written a guide that solves a drawback or presents a new technique, your book will bring in both visitors and profits. So make sure to write that selling-deal with sentence that sums up what problem your book solves and what the advantages of your 13 e book will likely be to the shoppers who buy it. After which watch your market come to you!
