and promotional material, and each time anybody asks you about your ebook.

An efficient technique for figuring out a price is to ship out a survey to your current customers. If these clients have already bought an book from you, ask for their opinion when it comes to price. Do this by creating a sales web page for the new e book, but don't embrace a value on that page. Instead, add a number of hyperlinks to survey questions that ask pointed questions to help you in assigning a value to your ebook.

Another strategy is to check out costs by creating a variety of duplicate gross sales pages with completely different prices on every page. Be certain your sales copy is strictly the similar on every page, and includes your promoting-handle sentence. Then determine for each page the conversion ratio between visitors to your web site and gross sales of your book. This can let you know what your optimum value is.

In the end, if you happen to've written a e-book that solves a drawback or presents a brand new technique, your book will bring in both visitors and profits.
