every piece of gross sales and promotional material, and every time anyone asks you about your ebook.

Besides promoting your books assiduously on-line, there are several different methods that may show you how to sell extra books.

One is to give something away free of charge along with your guide, akin to a precious bonus item. Or bundle several ebooks under one worth, which lowers the price for every ebook if they were bought separately.

An efficient method for determining a price is to send out a survey to your present customers. If these clients have already bought an e-book from you, ask for his or her opinion in terms of price. Do that by creating a gross sales page for the new book, but do not embody a value on that page. As a substitute, add various hyperlinks to survey questions that ask pointed questions to aid you in assigning a value to your ebook.

One other strategy is to test out prices by creating a variety of duplicate gross sales pages with totally different costs on each page. Be certain your gross sales copy is strictly the same on each web page, and contains your promoting-handle sentence. Then determine for every web page the conversion ratio between visitors to your web site and gross sales of your book. This will inform you what your optimum price is.

Ultimately, should you've written a guide that solves a problem or presents a new method, your e book will herald both site visitors and profits.
