An efficient technique for figuring out a price is to ship out a survey to your present customers. If these clients have already purchased an e book from you, ask for his or her opinion when it comes

to price. Do this by creating a sales web page for the brand new ebook, but don't include a price on that page. As a substitute, add a lot of links to survey questions that ask pointed questions to help you in assigning a worth to your ebook.

Another strategy is to test out costs by creating a number of duplicate gross sales pages with completely different costs on each page. Be certain your gross sales copy is precisely the identical on each page, and includes your selling-handle sentence. Then work out for every web page the conversion ratio between visitors to your site and sales of your book. This will inform you what your optimum price is.

In the end, if you've written a book that solves a problem or presents a brand new method, your e book will bring in both visitors and profits. So make sure you write that selling-deal with sentence that sums up what problem your e-book solves and what the benefits of your 2607 e book will be to the customers who buy it. And then watch your market come to you!
