An effective approach for determining a price is to send out a survey to your present customers. If these clients have already bought an e book from you, ask for their opinion in terms of price. Do that by making a sales web page for the new e book, but don't embody a value on that page. Instead, add a lot of hyperlinks to survey questions that ask pointed questions to assist you in assigning a worth to your ebook.

Another strategy is to test out costs by creating a variety of duplicate gross sales pages with different prices on every page. Be sure your sales copy is strictly the similar on every web page,

and contains your selling-handle sentence. Then determine for each web page the conversion ratio between visitors to your web site and gross sales of your book. This may tell you what your optimum value is.

Ultimately, for those who've written a book that solves a drawback or presents a new technique, your book will bring in each site visitors and profits.
