An efficient method for figuring out a price is to send out a survey to your present customers. If these clients have already purchased an e book from you, ask for his or her opinion when it comes to price. Do this by making a sales web page for the brand new book, however do not embody a worth on that page. As an alternative, add a lot of hyperlinks to survey questions that ask pointed questions to assist you in assigning a worth to your ebook.

One other strategy is to check out costs by creating a number of duplicate sales pages with different prices on each page. Make sure your sales copy is strictly the same on every page, and

consists of your selling-handle sentence. Then figure out for each web page the conversion ratio between visitors to your site and sales of your book. It will tell you what your optimum value is.

Finally, if you've written a book that solves a drawback or presents a new approach, your e-book will usher in both traffic and profits.
