One other strategy is to check out costs by creating a number of duplicate sales pages with different prices on every page. Be sure that your gross sales copy is strictly the similar on every

web page, and contains your selling-handle sentence. Then determine for every web page the conversion ratio between guests to your web site and sales of your book. This may let you know what your optimum price is.

In the end, if you've written a book that solves a downside or presents a new method, your e book will usher in each visitors and profits.
