An efficient approach for figuring out a value is to ship out a survey to your present customers. If these customers have already purchased an e book from you, ask for their opinion in terms of price. Do this by making a gross sales page for the brand new book, however do not include a value on that page. As an alternative, add a variety of hyperlinks to survey questions that ask pointed questions to help you in assigning a price to your ebook.

One other strategy is to test out costs by making a number of duplicate sales pages with different costs on every page. Be sure your sales copy is precisely the identical on each page, and consists of your selling-handle sentence. Then figure out for each page the conversion ratio between guests to your web site and gross sales of your book. This will tell you what your optimum value is.

In the end, if you happen to've written a book that solves a problem or presents a brand new method, your guide will bring in both site visitors and profits.
